

TIGERMOTH
LIGHTING LTD

HERE AT TIGERMOTH LIGHTING, WE WORK WITH BEAUTIFUL MATERIALS TO CREATE EXQUISITE CONTEMPORARY LIGHTING.

Each and every light is hand-made by skilled craftsmen and women in our workshop by the river Thames in Berkshire, England.

Beautiful natural materials are the inspiration for our designs - hand-cut crystals, delicate metal chains, luxurious silks and gold leaf are all set off by hand-crafted metalwork.

In addition to the standard collection featured in this catalogue, we also specialise in making decorative lighting to our clients' specifications.

Our collection of chandeliers, pendant lights, wall lights and lamps can be found in gorgeous hotels, restaurants, and private residences all over the world.

We are privileged to regularly work with some of the most prestigious design practices in the UK and internationally.

Our attention to detail and focus on client service has won us a loyal base of returning clients. We're here and waiting to help you with your project - so get in touch for technical information, samples, images, or anything else you need.

OUR FINISHES

Beautiful materials are the inspiration for everything we do and they are also the first thing that most people notice about our lighting.

We combine our hand-crafted metalwork with luxurious silks, hand-cut crystals, delicate chain strands and gold leaf to create stunning elegant pieces that are built to last.

Our Sample Kit contains samples of each of the main finishes in the collection. There are many different options for each format, enabling a large number of different colours and designs to be created.

We are also able to create special finishes to your specification as part of our custom service.

Total of 12 different silk colourways in standard collection. Samples of each are available on request.			

SILK

Sumptuous silk.

METALWORK

Hand-crafted metal work.

CRYSTAL

Beautiful hand-cut crystal.

CHAIN

Delicate chain strands.

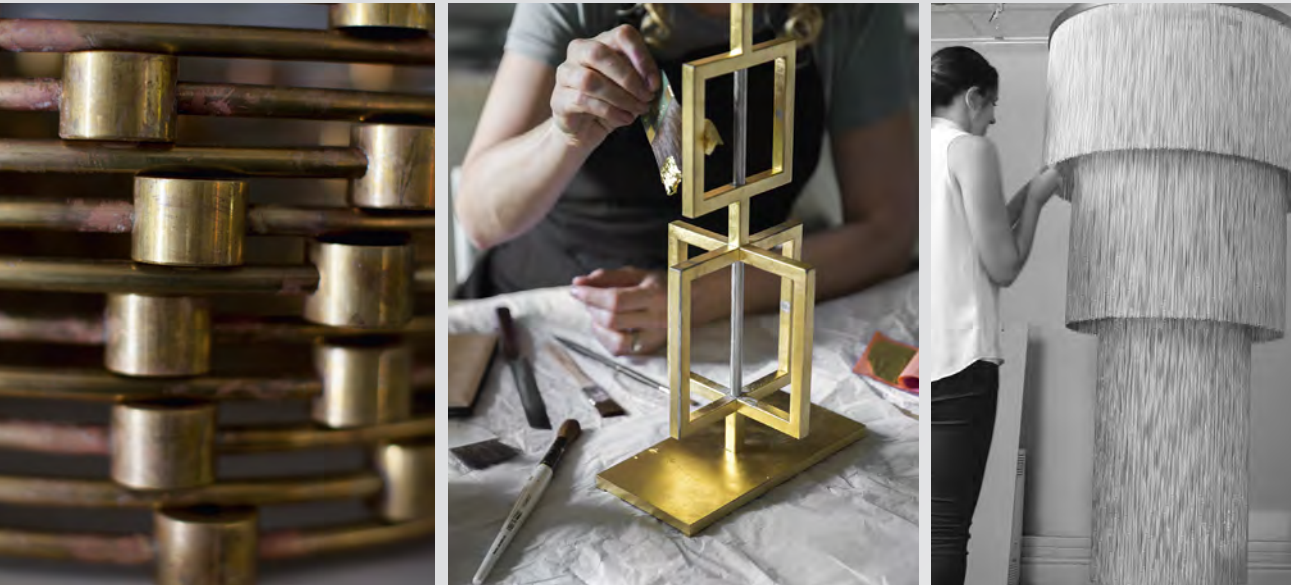

FLEX

High quality fabric-covered flex.

HAND-CRAFTED ELEGANCE

A team of skilled craftsmen and women turn our beautiful materials into each light by hand in our Berkshire workshop. It takes 6 months to become fully trained in the skill of combining hundreds of individual crystals or chains to create our chandeliers. Some of our larger pieces can take hundreds of hours to complete. Every single piece is hand-made to order in our workshop with the greatest attention to detail.

BATHROOM LIGHTING

Our collection is available converted to IP44 for use in bathrooms. So now you are able to choose beautiful contemporary lighting, whatever room you are designing. Contact us for the special IP44 product information and price list.

ACCESSORIES

Triple Pendant Kit in
Bronze with Gummetal
flex, shown with Chain
Maxi Pendants

We offer a variety of flex lengths, colours and configurations, which enable you to use our Pendant Lights in creative ways. Our Pendant Kits come with solid metal lamp holders and ceiling roses which match the metalwork of your Pendant Light.

Visit the Accessories section of the website for more information on the different options available. Whilst you're there, you'll also be able to browse a selection of light bulbs, samples and other useful bits and pieces.

CUSTOM LIGHTING

We specialise in creating custom decorative lighting to your specifications. Listed below are some of the projects that we commonly undertake. This is just a sample of what can be achieved - call us to discuss your project requirements today.

USA Compatible fittings

Custom Shape, e.g. oval chandelier

Custom size, e.g. 5m long chandelier for stairwell

Custom format, e.g. separated tiers

Custom crystal, chain or other decorative elements

Custom silk shades

Specialised ceiling fixings and suspension

Clusters and installations of multiple Pendants

Custom flex colours and lengths

Custom metalwork finishes, e.g. polished nickel

Additional inner tiers

IP44 rated fittings for bathrooms

Measure up
Height measurements for chandeliers do not include the suspension chains.
Suspension chains for chandeliers can be adjusted to the height needed upon installation. If you need a longer chain we can supply it, just call us. All measurements and weights are approximate - our lights are hand-crafted so there will be some variation.

Make it shine
You will need a qualified electrician to install your light.
To find one in the UK, try www.niceic.org.uk or www.napit.org.uk. Our lights come with comprehensive installation instructions. They shouldn't need much maintenance but we give you some information on that too.

If you have chosen a crystal light, it will arrive with the crystal packaged separately in strands (this is common practice and is done to prevent damage to the crystal in transit). All you need to do to assemble your light is to hook each strand onto the frame with the hooks provided.
If you have chosen a chain light, it will arrive fully assembled. Silk and lattice shades are supplied separately and will need attaching after installation.
All of our lamp holders are standard large Edison Screw (E27).
We recommend low energy halogen or LED bulbs for use with silk and lattice shades, call us for advice.

Built to last
Our lights are hand made – each one is an individual work of craftsmanship.
Our crystal lights use quality optical crystal or coloured crystal. The crystal in your light will have a brilliant sparkle and will scatter shafts of light all around your room.
The crystal (especially coloured crystal) will contain some swirls, air bubbles and other small imperfections.
Our chain lights are made up of hundreds of individual strands of chain, each one made in the UK and attached by hand. Our silk shades use the highest quality silk.

Where we're from
All of our lights are designed and manufactured in England by skilled craftsmen and women.

A different standard
This table of information relates to our standard collection, which is designed to UK / EU standards. We can convert any light in the collection to other worldwide standards, including USA, on request. We can also convert to IP44 standards for use in bathrooms. Alternative product information sheets and price lists are available for these different standards - contact us for more

Safe as houses
Our lights are each individually tested and CE Marked.

Something different
Can't see what you're looking for in our standard range?
Why not give us a call to discuss your requirements?
We specialise in creating custom light fittings.

THE TIGERMOTH SHOWROOM

The beautiful materials that we use and the craftsmanship that goes into each and every light is something that is best seen first-hand. With all of our different formats, finishes, sizes and colours on display, visiting our showroom is by far and away the best way to view the Tigermoth collection.

Our lovely showroom Chandlers House is open from 9am – 5pm Monday - Friday. If you are looking for technical advice or would like to commission a custom project, why not make an appointment to meet our design team when you visit? The showroom is attached to our workshop and if you would like to have a look round while you are here, you will be most welcome. Situated in the picturesque Berkshire town of Pangbourne-on-Thames, the showroom is easily accessed by train from Paddington or by car from the M4.
