320mm	20mm	780mm	45 – E14	5W each	18Kg	1200mm x 100mm	

## General:

All lamp holders in the Fold collection are standard small Edison Screw (E14).

We recommend that the chandelier is wired to a dimmer switch.

Made to UK / EU standards and designed to operate at 240V / 50Hz.

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

Dimmable LED filament light sources are supplied included.

## Assembly:

Please note that small adjustments can be made to the flex suspension length during installation. If you require longer flex suspension, please let us know upon request.

You will need a qualified electrician to install your light. To find one in the UK, try [www.niceic.org.uk](http://www.niceic.org.uk) or [www.napit.org.uk](http://www.napit.org.uk).

Our lights come with comprehensive installation instructions. They shouldn't need much maintenance but we give you some information on that too.

## Made in England.

All of our lights are designed and manufactured in England by skilled craftsmen and women.

All designs are copyright to Tigermoth Lighting Ltd.

## Energy Rating:

## Modifications available:

- Additional flex suspension length

Call us for more information on modifications.

Tigermoth Lighting is a Lighting Industry Association Quality Assured Company.
