320mm	780mm	54 - E14	5W each	22Kg	550mm	700mm	

General:

All lamp holders in the Fold collection are standard small Edison Screw (E14).

We recommend that the chandelier is wired to a dimmer switch.

Made to UK / EU standards and designed to operate at 240V / 50Hz.

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

Dimmable LED filament light sources are supplied included.

Please note that the lacquered brass finish may develop a slight patina over time due to the natural properties of the material.

Assembly:

Please note that small adjustments can be made to the flex suspension length during installation. If you require longer flex suspension, please let us know upon request.

You will need a qualified electrician to install your light. To find one in the UK, try www.niceic.org.uk or www.napit.org.uk.

Our lights come with comprehensive installation instructions. They shouldn't need much maintenance, but we give you some information on that too.

Modifications available:

- Additional flex suspension length

Call us for more information on modifications.

Made in England.

All of our lights are designed and manufactured in England by skilled craftsmen and women.

All designs are copyright to Tigermoth Lighting Ltd.

WEEE Registration Number: WEE/BU3809XD
